Now available as a CarbonNeutral product, making sure our commitment to a more sustainable future helps yours too.

Steelcase Series 2 is the attainable, high-performing task chair that can be personalized with extensive style choices. Its backrest signals comfort and sophisticated support, while the slim profile and light scale look can help optimize any space. The back features an innovative geometric design that flexes in two dimensions to provide continuous support for the spine.

Back frame and seat shell are plastic. Fabric back cover and quilted back are available as options on fully upholstered versions.

Lumbar height adjusts 3¾".

Air LiveBack technology works through an innovative geometric design that flexes in two dimensions as the user moves to create responsive, personalized comfort and fit.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range are available as options. Stools have a 7¾" range.

Comfort dial provides three settings for the user's personal preference and work style.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Arm width adjusts 2¼" in each direction.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Five-star base is available in plastic or polished aluminum.

Arm depth can be adjusted approximately 3".

Arm caps can pivot 30° inwardly and outwardly.

Seat depth adjusts within a 2¾" range.

## Product Details

Uncartoned request on your dealer purchase order means Steelcase Series 2 chairs will ship blanket wrapped and fully assembled. *Tip: Select cartoned if a box is preferred, cartoned chairs will ship unassembled.*

## Adjustment Features

Adjustability instructions are included with every chair.

## Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3¼" range of adjustability (14¾" to 18") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

Seat depth adjusts 2¾" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on Steelcase Series 2 work chairs and stools.

## Back Adjustments

Lumbar height adjusts 3¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on Steelcase Series 2 work chairs and stools.

Weight-activated setting

Boosted tension setting

Upright setting

Comfort dial has three settings: (1) weight-activated setting; (2) boosted tension setting that has more resistance than your body is providing; and (3) an upright back lock setting.

Headrest adjusts 3¼" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, seagull, or sterling dark. The foam pad of the headrest is available in all upholstery currently approved on seat and back.

## Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7½"–11½" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" in each direction.

## Steelcase Series 2, continued

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Armless models are also available.

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Hard, dual-wheeled casters are standard. Soft, dual-wheel roll-control casters are available as an option. Glides are also available as an option.

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair but will not match the frame exactly. The coat hanger is not intended to hold bags or backpacks.
