

Steelcase

Steelcase Series® 1 Air

High-Performance Seating

Essential Ergonomics

Steelcase Series® 1 gives you essential ergonomics and quality at a great value. It retains everything that's valued in a chair—performance, style and choice, while making it attainable for everyone.

Design Details

This high-performance chair boasts space efficiency, Air LiveBack®, and materiality choices to fit a variety of people, preferences and spaces. The weight-activated mechanism with boost allows an equitable experience for all users, while providing optional additional tension if they need it—allowing anyone, anywhere to sit down and get comfortable—quickly.

Performance Features

Air LiveBack® Technology

Weight-Activation + Boost

Materiality Options

Features

Back Support
AirBack featuring Air LiveBack® Technology works through an innovative geometric pattern in the back that flexes in two dimensions to encourage movement and support posture changes.

Weight-Activated Synchro Tilt Mechanism
Responds to your body weight to provide the right amount of back tension as you recline.

Recline Adjustments
Comfort dial offers three settings: Upright back lock, a boost setting (offers additional recline tension resistance for individuals who need it) and weight-activated full recline.

4D Arms
Fully adjustable arms move in height, width, depth and pivot to better support your neck and shoulders.

Seat Ergonomics
Seat is height and depth adjustable. Flexible edges and adaptive bolstering in the seat foam provides long-term, pressure-free comfort.

- Additional Options:**
- Chair or Stool
 - 4D arms (standard), height-adjustable arms or armless options
 - Headrest
 - Coat Hanger
 - Hard, dual-wheel casters (standard) or soft, roll-control or glides
 - CarbonNeutral® product certification

Series 1 helps organizations achieve their carbon emission goals. Add **CN** to the end of the style number to specify Series 1 with CarbonNeutral product Certification.
