“

*Inspired by the robust function of tools, the chair is a tool for life. We wanted to build something that lasts. Does an honest job and does it well. It's a classic silhouette with highly refined details, which I think will be well received by the Australian market.*

*Ben McCarthy  
Australian Designer*

”

“

*The Utility Collection is an iconic design and we are really proud of what we have created.*

*This collection required multiple tools using the latest technology to produce something that looks minimalist, long lasting and beautiful.*

*Simon Bando  
Creative and Managing Director*

”
